

Co-Op Internship Program

Bridgewater Systems offers student co-op terms and internship opportunities in all areas of our business—from R&D to marketing, operations, and IT. In some cases, student opportunities lead to full-time employment upon graduation.

Much more than a temporary job, our program gives students a taste of what it's like to be a full-time member of the Bridgewater team, contributing to the success of the company and its customers. Students and interns are challenged with the same kind of duties required of any full-time employee, allowing them ample opportunity to evaluate Bridgewater as a prospective full-time employer.

There are many other benefits while working at Bridgewater, such as:

- Participation in quarterly all-staff meetings, regular team meetings, and one-on-ones with management.
- Access to senior level resources for skill development and mentoring.
- Social activities (e.g., competitive and recreational sports, barbecues, and holiday parties).
- Opportunity to be a part of our HOPE beach volleyball teams.
- Fitness plan reimbursement.

Past students have had an opportunity to be a part of patent filings, have contributed toward our core business, and have worked with experienced individuals in a fast-paced environment. Many of our past students have chosen to return for future placement terms. If you are looking for an opportunity to join a team-oriented and fast-paced environment where achievements count, then we would like to hear from you!

How to Apply

Bridgewater posts co-op opportunities with many Ontario universities. Watch for a posting for your next work term. If you don't see us at your university, you may apply directly to our posted co-op opportunities or, if there is no current posting, you may submit an application for future consideration.

About Bridgewater Systems

Bridgewater Systems, the mobile personalization company, enables service providers to efficiently manage and profit from mobile data services, content and commerce. The company's market leading mobile personalization portfolio provides a real-time, unified view of subscribers including entitlements, devices, networks, billing profiles, preferences and context. Anchored by Bridgewater's Subscriber Data Broker™, the portfolio of carrier-grade and standards-based products includes the Bridgewater® Service Controller (AAA), the Bridgewater® Policy Controller (PCRF) and the Bridgewater® Home Subscriber Server (HSS). More than 150 leading service providers including America Movil, Bell Canada, Clearwire, Cox, Hutchison Telecom, Iusacell, Scartel, SmarTone-Vodafone, Sprint, Tata Teleservices, Tatung, Telmex, Telstra, and Verizon Wireless use Bridgewater's solutions to rapidly deliver innovative mobile services to over 150 million subscribers.
