

Data Sheet

Pre-paid Integrator

An optional module of the Bridgewater® Service Controller, Pre-paid Integrator allows service providers to offer pre-paid data services while reusing their existing voice billing system and protecting their investments.

Service providers need to be able to offer a variety of pre-paid data access services — based on bytes or time consumed, or by which users are charged per download, per message, or per subscription, for example.

The Pre-paid Integrator provides an adaptation layer that supplies appropriate functionality between the network, applications, and the pre-paid engine. Totally integrated into existing billing systems, Pre-paid Integrator provides a seamless and easy-to-administer service, helps prevent revenue leakage, and is fully traceable, allowing for revenue recovery in case of failure.

Features and Benefits

- **Includes both time-and volume-based prepaid quotas** to support multiple service models.
- **Immediately suspends sessions upon draining of a pre-paid account**, helping to minimize revenue leakage.
- **Provides a low-balance notification** with a configurable threshold, enhancing service continuity and keeping accounts from fully depleting.
- **Enables automatic subscriber redirection** to a pre-paid portal, allowing subscribers to top up accounts once the low-balance threshold has been reached.

Offers standards-based support including Diameter Credit Control Application (DCCA) interface to accelerate time to market.

About Bridgewater Systems

Bridgewater Systems, the mobile personalization company, enables service providers to efficiently manage and profit from mobile data services, content and commerce. The company's market leading mobile personalization portfolio provides a real-time, unified view of subscribers including entitlements, devices, networks, billing profiles, preferences and context. Anchored by Bridgewater's Subscriber Data Broker™, the portfolio of carrier-grade and standards-based products includes the Bridgewater® Service Controller (AAA), the Bridgewater® Policy Controller (PCRF) and the Bridgewater® Home Subscriber Server (HSS). More than 150 leading service providers including America Movil, Bell Canada, Clearwire, Cox, Hutchison Telecom, Iusacell, Scartel, SmarTone-Vodafone, Sprint, Tata Teleservices, Tatung, Telmex, Telstra, and Verizon Wireless use Bridgewater's solutions to rapidly deliver innovative mobile services to over 150 million subscribers.
